### **PIEXON NON-LETHAL SHORT RANGE DEFENSE 1 OR 2 ATTACKERS**

#### **JPX Jet Protector**

The JPX Jet Protector is the most functional and powerful hand-held OC delivery system available today. Using the revolutionary Piexon non-aerosol propulsion technology, JPX effectively reaches distances up to 7 meters (23 feet) at 180 m/s (395 Miles Per Hour). A removable magazine contains two charges. Ease of training and the power of each super-strong Capsaicin payload has made the JPX very popular among law enforcement and corrections professionals worldwide.

## **JPX Jet Protector Magazines**

The JPX magazine holds two cartridges filled with a liquid irritant agent or with a dye marker available for training purposes. The filling volume is 10 ml (0.28 fl. oz). The cartridges are powered by a propulsion charge. Each magazine can be used twice, after two blasts it is disposable.
