

VEXOR™ - Pepper Spray Products

All Vexor pepper spray products contain the highest level of capsaicinoids, making them the most effective less lethal weapon on the market today. All Vexor products are Non-flammable and EID safe.

Vexor is available in 1.45% and 1.0 % Capsaicinoid level formulations. Zarc formulations are tested by independent certified labs to verify capsaicinoids content. This ensures you are receiving the best and safest product in every can of Vexor

VEXOR MK-3 & MK-4 Flip-Top Stream *FULL AXIS*

Vexor Full Axis, a new breakthrough pepper spray that can fire from any position — even upside down, unlike other models which do not perform when turned on their side. Now officers can perform with greater safety — and stop aggression from any angle — with a constant and potent OC stream.

Full Axis is currently available in Vexor 1.45% and 1.0 % Capsaicinoid level formulations.

Inert training units are also available.

Capable of being fired at any angle, including up-side-down.

A. MK-3 Flip-Top Stream FA
Model V-7145-3FTS-FA
Inert Model T-3FTS-FA

Model V-7145-3FTS Inert Model T-3FTS
D. MK-3 Flip-Top Cone
Model V-7145-3FTC Inert Model T-3FTC
E. MK-4 Flip-Top Stream
Model V-7145-4FTS Inert Model T-4FTS
F. MK-4 Flip-Top Cone
Model V-7145-4FTC Inert Model T-4FTC

VEXOR MK-3 & MK-4 Micro-Spin Stream

ZARC's patented new MicroSpin pattern provides the benefits of most existing spray patterns while eliminating their drawbacks. MicroSpin has a rifling effect. It accurately launches a rotating pepper-spray payload that expands to form an oval on impact, covering the entire face of the subject with one shot. It can be used both indoors and outdoors. It enables the payload to pierce wind and rain without any blowback.

- Patented MicroSpin® Stream
- Built-In manual safety lock
- Face-size oval upon impact

G. MK-3 Micro-Spin Stream
Model V-7145-3MSS Inert Model T-3MSS
H. MK-4 Micro-Spin Stream
Model V-7145-4MSS Inert Model T-4MSS

VEXOR MK-3 Grenade

- Timed Release
- Continuous fog

I. MK-3 Grenade
Model V-7145-3G Inert Model T-3G

VEXOR Crowd Control Units MK-9 Cone & Stream

- Range up to 15 feet
- Delivers large quantity of pepper spray on multiple targets

J. MK-9 Crowd Control Cone
Model V-7145-9FMC Inert Model T-9FMC
